

CCRO Europe Discussion & Reception

Afternoon of January 23rd

at the **South Place Hotel**, 3 South Place, London, EC2M 2AF

January 23, 2020

Our Gathering

Several factors have recently led CCRO members to take steps to arrange a private gathering of Risk and Compliance Officers based in Europe.

One such factor is that CCRO members with risk offices in both the US & Europe wish to expand the current benefits of CCRO membership to their European operations.

Another factor is that a number of energy companies in Europe have reached-out to express an interest in being part of a European-focused CCRO, should such an entity come-together.

Your Invitation:

As a result, we are extending an invitation to you as a risk professional specifically recommended for this gathering and discussions.

It will immediately follow the Cube Logic user group conference at the same venue. We'll start discussions at 4:00, end with cocktail hour.

Register to secure your spot by going to this link:

<https://www.etrsummit.com/ccro>

Discussion Topics

- What is the current situation for European energy industry professionals that want to work together with their peers in risk and compliance?
- Why did energy companies form the non-profit Committee of Chief Risk Officers (CCRO) in 2003?
- What might a Euro-CCRO group bring to its member companies?
- What needs to happen to create a Euro-CCRO group?
- What is the consensus of the attendees on next-steps ?

Who's Coming?

We have invited current and potential CCRO members in Europe, including:

BP	Cube Logic
RWE	Just Energy
Shell	National Grid
Engie	
EDF Trading	And more...
Chevron
